Target Role — short positioning line

Firstname Lastname

+33 X XX XX XX XX | email@domain.com | linkedin.com/in/username | github.com/username

PROFILE

Short professional summary in 2–3 sentences. Lead with your current title or status, list 2–3 hard skills you specialise in, and state the role / contract type you are looking for. Keep it under 250 characters so it stays punchy.

PROFESSIONAL EXPERIENCE

Company name — team / division **City, Country**
Job title (contract type, e.g. Apprenticeship) 20XX – 20XX

- Achievement bullet starting with a **strong action verb**. Quantify scale (size, volume, accuracy, time saved). Bold **key tools / techniques** that recruiters search for, like **Python**, **PyTorch**, **LangChain**.
- Second achievement. Different verb. Different metric. Different keywords. Each bullet should communicate one outcome — not a job description.
- Third achievement. Mention the **business impact** and any cross-team collaboration if relevant.
- Fourth achievement (optional). Use sparingly — 3–4 bullets per role is the sweet spot.

Previous employer **City, Country**
Role (Internship, Freelance, Part-time, etc.) Mon 20XX – Mon 20XX

- One- or two-bullet summary if the role is short or less relevant.

EDUCATION

Institution name **City, Country**
Degree title (full name, abbreviation in parentheses) 20XX – 20XX

- Final project / thesis topic in **bold**, supervisor or partner if relevant.
- Coursework: list 4–8 **high-signal courses**, separated by commas.

Previous institution **City, Country**
Previous degree 20XX – 20XX

- Coursework: another short list of relevant subjects, with **keywords** bolded.

ACADEMIC PROJECTS

Project title — short tagline
Context: institution / hackathon / course (team of N) — year

- Outcome-first description: what you built, with **technologies** bolded. Mention the team size and your specific role (lead, dev, designer).

Second project — short tagline
Context — year

- Description, **tools**, metric (accuracy, latency, deployment, users).

Third project
Context — year

- Description, **tools**, outcome.

EXTRA-CURRICULAR ACTIVITIES

Association / Club name — institution
Position — 20XX – 20XX

- What you organised, scale (participants, frequency), tools used. Quantify when possible (e.g. **weekly events**, **50+ attendees**).
- Second activity / initiative if relevant.

INTERESTS AND SKILLS

Programming: Language 1, Language 2, Language 3, Language 4
AI / ML: Library 1, Library 2, Framework 1, Framework 2

LLM / Agentic: Tool 1, Tool 2, Concept 1, Concept 2
Data / MLOps: Tool 1, Tool 2, Tool 3, Tool 4, Tool 5
